

AudioPack Pro

Sound. Simplified.

Meet the new **AudioPack Pro**—background music and paging solutions that bring Bose Professional's signature sound and quality to your commercial space. All in a single convenient, ready-to-install package.

Inside the box are a Bose Professional amplifier and loudspeakers, specifically matched and optimized to enhance the customer experience with premium sound. The ideal mix of performance and value, these solutions deliver exceptional durability, clean design, and ease of installation.

Perfectly paired and optimized for performance.

These systems feature FreeSpace FS, our trusted line of in-ceiling and surface-mount loudspeakers. They combine proven durability, clean design, and ease of installation with remarkably consistent tonality. FreeSpace loudspeakers deliver clear voice reproduction and smooth response with a pleasing aesthetic that blends into any environment.

The package also includes the FreeSpace IZA 190-HZ integrated zone amplifier. Easy to install and use every day, this powerful yet compact amp can be conveniently placed out of the way to save space.

DIFFERENT SYSTEM PACKAGES TO MEET YOUR SPECIFIC AUDIO NEEDS:

AudioPack Pro C4W (four white, in-ceiling)*

AudioPack Pro C6W (six white, in-ceiling with tile bridges)**

AudioPack Pro S4B (four surface-mount, black)

AudioPack Pro S4W (four surface-mount, white)

* Available outside of North America

** Available in North America only

Premium sound for your business—in one convenient package.

Bring Bose Professional quality and reliability to commercial spaces with a convenient solution that installs quickly and easily to deliver premium audio performance.

FreeSpace FS loudspeakers provide durability and performance, pleasing aesthetics, and ease of installation—with remarkably consistent tonality.

FreeSpace IZA 190-HZ integrated zone amplifier delivers premium sound, simple setup, easy daily operation, and the flexibility to expand when more loudspeakers are required.

Hear the best of both music and voice with transducers that offer clear voice reproduction and smooth response for background music.

Modern aesthetics and practical features blend with many room layouts. Available in black and white, with logos that can be easily removed for a cleaner, unbranded appearance.

INSTALLATION MADE EASY.

Simple instructions available via QR code on the box that guide you through the install process—with professional tech support available if needed.
